

# Case Study

## B&B Electronics ISO 9001:2008

B&B Electronics Ltd, a provider of data communication products for commercial and industrial applications has successfully achieved certification to the ISO 9001:2008 Quality Management Systems Standard, for their site located at Westlink Commercial Park, Oranmore, Co. Galway.

Certification to the ISO 9001:2008 was formally awarded by NQA, an internationally accredited registrar, following an independent assessment of the quality management system.

### Certification was achieved in short time

Almir Business was engaged by B&B Electronics as their preferred quality management consultancy practice supporting the development and implementation of the quality management system.

Certification was achieved in a relatively short period of time and is a testament to the management team and employees of B&B Electronics that ISO 9001:2008 certification was achieved at the first attempt.

Mr. Brendan Gallagher,  
Managing Director

“ ... it demonstrates our  
commitment to quality in  
all areas of our operation”.

### Doing what's right for the customer is part of our culture

From the Galway office, B&B support specialists help customers solve their data communication dilemmas and assist them on product selection, system design, installation and troubleshooting. "Doing what's right for the customer is part of our culture at B&B and this achievement is a clear sign to our customers of the strength and quality of our processes and validates that we are devoted to continuous improvement", added Jerry.

ISO 9001:2008 is the internationally recognised standard for Quality Management Systems (QMS). ISO 9001:2008 focuses on fulfilling customer's quality requirements, any applicable regulatory requirements, while aiming to enhance customer satisfaction, and achieving continual improvement of its performance in pursuit of these objectives.
